**Review of Nature Conservation Act 1980**

Dear Sir/Madam

Attached is the Red Hill Bush Regenerators Inc. response to the public call for comment on the Review of Nature Conservation Act 1980. Please note that we have limited our comments to those issues which are directly within the experience of our group. As a consequence our comments do not address each and every item raised in the review.

We have welcomed the opportunity to comment on the Discussion Paper and would be pleased provide further comment once draft amendments have been developed. However, our strong preference is to do this through the mechanism of contact group discussions involving other Parkcare Groups.

Yours sincerely

Sue Ross  
Secretary  
Red Hill Bush Regenerators Group  
21 Bass Gardens  
Griffith ACT 2603
