Mr Ross Kingsland
Red Hill Regenerators
rossandsue@gmail.com

Dear Mr Kingsland,

An integrated plan for the Red Hill Nature Reserve and surrounds

The Legislative Assembly passed a resolution on 25 October 2017 that halts Territory Plan variations which share a boundary with the Canberra Nature Park at Red Hill until an integrated plan for the area has been prepared.

This resolution essentially supersedes the work of the Federal Golf Club Community Panel of which you were a participant. I can confirm that the work you have undertaken and the issues you have raised through the community panel will be considered as part of the broader integrated planning process.

While the detailed scope of the integrated plan is still being developed, I anticipate that a draft document will be ready for public consultation in the second half of 2018. In this regard, your continued interest in this planning process is encouraged and I would welcome your comments during the consultation stages in the preparation of the plan.

I would also like to take the opportunity to thank you for your participation in and input into the deliberations of the community panel.

Information on the preparation of the plan will be placed on the Directorate website: <http://www.planning.act.gov.au>. As a panel member you will also be contacted directly about key stages in the consultation process.

Ben Ponton
Director General
